

YES MILANO

Milano for the Life Sciences

NETWORKING BREAKFAST

Milano is home to an internationally competitive pharmaceutical, biotechnology and functional foods hub, with strong growth prospects and a commitment to innovation across its entire value chain.

This event will be the opportunity to hear about what's happening in the city, with a focus on the MIND project, the 1 mln sqm innovation park district combining its scientific and clinical inclination in the Life Sciences sector with a unique international platform to capitalize the global and local research and business excellences.

Wednesday, June 7TH

10AM onwards

#2065, Italian Pavillon, BIO International Convention
Boston Convention & Exhibition Center - Boston, MA
